# ***SPACECREW FINANCE COMPANY***

SPACECREW FINANCE is a group of companies united by an idea as well as by the team of professionals, software, and long-term cooperation agreements.

In 2023, the Ukrainian projects took on a development strategy that allows to return the net assets to the pre-war level by improving the efficiency of the portfolio and reducing liabilities.

In the first half of 2023, Ukrainian lending projects as well as the other lending companies of the Group continued to grow in loan issues and as a result, the net profit of 7M2023 has totally covered the force majeure losses caused by the war in Ukraine in 2022.

The total result of all lending companies is in reducing liabilities by ~50% and doubling the net assets, which amounted to \$6.8M in the 7th month (after \$3.7M in Y2022)

The core of the SpaceCrew Finance is a Ukrainian fintech company created in Ukraine in 2017 thanks to the developments and ideas of Roman Katerynychyk. It works under the well-known brand MyCredit and has been holding a lead position in PDL business in Ukraine for the years.

The group is led by a team of experienced professionals in FinTech, financial, and IT areas. In 2019-2020 the business model was expended on Asian markets and successfully launched PDL project in Vietnam and Sri Lanka and in 2022 in Poland.

All companies have a huge desire for growth.
